Kia ora and hi there.

We think the Bible is the coolest book in the world and so do a lot of other people in lots of different countries. It has stories for everyone in it. We have always loved sharing these stories especially with kids. It is also a lot of fun to find things to do to go with Bible stories.

The Logo on this page is something we have made. You might like to dream up a new name and try your hand at a logo.

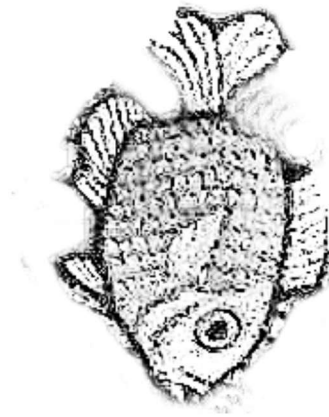

In this pack you will find:

- \* A story..
- \* Some hard questions and easy ones. Just to help you understand the story. You will find the answers in the story so you can go looking.
- \* Things to do. Things to make.
- \* A sheet of stickers to give to yourself. Cut out what you think fits and stick on your work. There are some without writing that you can put your own words on. And of course you can make up your own.
- \* A USB stick to put in your computer if you want to try out some new skills there. A page called computer fun which gives you help to do these things.
- \* Some music to listen to. Even adults like this song.
- \* A video clip to watch the story come alive.
- \* A picture.

There is nothing you have to do. And of course you can get anyone to help you. You can call us 234 8364. This is all about learning Bible Stories, having some fun and learning how to do new things.

Lots of love the Willis's.

icethus.

It was an acronym

fish

for Jesus Christ

spell the word for

God's son, Saviour

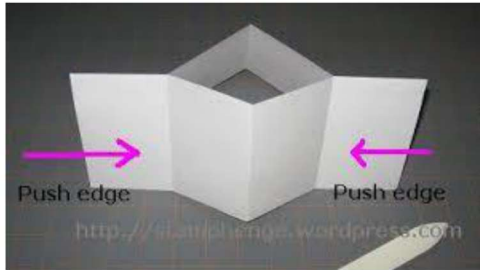

The Greek letters

## Let the children come

Instructions to make up your mini book.  
You might need to ask an adult to help you.

1. Cut along the two thin black lines at each end of your page.
2. Fold the two short sides together. Press firmly on the fold.
3. Fold again so that you have now folded in quarters.
4. Fold the whole thing in half to make the page size. Press all folds firmly.
5. Cut through on the black line for the length of one page only.
6. Unfold completely.
7. Now fold your paper lengthways.The diagram shows a piece of paper that has been folded into a Z-fold. Two pink arrows point from the outer edges towards the center fold. The text 'Push edge' is written below each arrow. A URL 'http://slatiphenix.wordpress.com' is visible at the bottom of the diagram.
8. Take hold of each end and press towards the middle.  
Your cut sections pop out and your two end piece meet in the middle
9. Hey presto. You have your minibook.

## A page to colour in

Jesus loved little children. When parents brought their children to Him, He took them in His arms and blessed them.

**I wonder if you might like to give the children names?**
